Join FOX Racing Shox Factory Reps December 20th at ERX and Experience the New Fox Float Evol Shock; Plus Woody's Traction, HMK and Speedwerx Reps Will Serve Up Performance Tips and Products

ELK RIVER, MN (December 12, 2008); This December experience the next generation in air shock technology where it matters most... on the snow at ERX. Join factory representatives from Fox Shox along with professional race teams at the newly created Extreme Motor Park (ERX) in Elk River, Minnesota December 20, 2008 for Test and Tune Day. This one day event will give you a chance to experience the new Fox Float Evol shock along with other variations of the Fox Shox family on the Midwest's premiere winter time motorsports park.

The crew from Fox will have their mobile trailer on-hand along with factory experts helping you pick the right shock for your snowmobile. From trail riding to racing and everything in between, Fox has an air shock to meet your needs. Plus, learn how to tune and adjust these innovative shocks for perfect ride calibration no matter the terrain.

"Fox has been innovating and designing air shocks longer than anyone else," said Fox Marketing Manager Mark Larson. "Of course there is no better way to experience this technology than to try them, which is why we are excited about the Test and Tune day at ERX."

Fox first introduced an air shock to the snowmobile world with their ground breaking Fox Float. Since then, the company has been refining the design and has added several variations to the mix including the new Float 2 and Float R Evol along with the competition based Float X Evol which includes dual air chambers and dual speed compression adjustments.

Joining Fox at ERX will be Woody's Traction Products, the recognized leader in stud and wear bar traction products; HMK, makers of quality winter outerwear and boots; and Speedwerx, one of the preeminent performance shops in the country.

Admission to the ERX Test and Tune day is the same as any open track day at ERX - \$75 plus an insurance fee. Arrive early and ride the ERX track all day.

Six events are currently slated for ERX this winter, with more on-deck as well as a summer schedule to be announced later this winter. ERX will also be available for private uses such as factory team testing, special dealer demo events, test rides, training and safety classes, swap meets, club functions and more. Details including racing classes, rules and directions to ERX can be found on the new ERX website: [www.ermotorpark.com](http://www.ermotorpark.com)

## GRASS ROOTS RACING ERX

**Mark Your Calendars: First Grassroots Race of the Season is Almost Here!**

December 18 - The first race of the Grassroots Racing Series at ERX is on. Designed for first time riders, the series is open to all trail sleds including vintage. Race your buddies, family or club members and experience the thrill of snocross in a safe, fun environment. Visit [ermotorpark.com](http://ermotorpark.com) for details.
